

PROJECT OBJECTIVES

Team ID	PNT2022TMID06920
Project Name	Project – IOT based safety gadgets for child safety monitoring and notification

The objectives are,

- The parent/guardian needs to ensure the safety of their children by receiving notifications about the location of the child so that they can regularly monitor the child's safety.
- To show the child's actual data with reference values.
- Capturing of data remotely such as where the child located, distance, etc.,
- Enabling sending of notification if the child is out of the boundary or under abnormal conditions.
- Develop the prototype of IOT wearable smart band, connected to parent's mobile apps so that they can monitor the actual condition of the children at any time and any place.
